${ }^{\text {F }}$ Course taught in fall only. ${ }^{\text {s }}$ Course taught in spring only. ${ }^{\text {W Writing course }}$
${ }^{1}$ Prehealth students are advised to take CH 461 in the junior year. $\mathrm{CH} 340 / 343$ and $\mathrm{CH} 462 / 463$ can be taken in either the junior or senior year.

Elective courses include general education requirements ( 36 hours $\mathrm{FC}, \mathrm{FL} / \mathrm{C}, \mathrm{HU} / \mathrm{L} / \mathrm{FA}$; and $\mathrm{HI} / \mathrm{SB}$ ), required minor, undergraduate research (CH 396, 398, 399), or other elective courses you choose. Note that you will need one writing course outside of the chemistry major. Your minor is a good place to get this.

A total of 120 hours is required to graduate. A total of $36300-400$ level courses must be taken. You will get 15 upper level hours in the chemistry major with required courses. Your minor will typically provide 6 or more upper level hours.
